Debt Reduction Steps: *Our Debt Reduction Program has delivered exceptional results for our clients.*

Here's how it works:

Step 1: Call or e-mail us for a free consultation. We will assess your financial situation and determine your potential for debt reduction/settlement.

Step 2: We will work with you to determine the monthly dollar amount you plan to save towards a negotiated settlement. This amount is usually significantly less than your current minimum payments, and goes toward paying off your debt rather than paying only interest and fees. Funds will be deposited and saved every month in a separate trust account that you set up and control.

Step 3: Once you enroll in the Debt Reduction Program we contact your creditors to handle future creditor communications. You will not have to answer any more harassing phone calls or collection attempts.

Step 4: After funds have set aside to make reasonable offers, we begin negotiating with your creditors individually with a goal to reduce your debts by at least 50% of current balances. You are continuously updated with the status of your case and you can log in to your online portal to track your progress. Please note, it may take several months of savings before we are in a position to make settlement offers.

Step 5: Once a settlement is negotiated with a creditor, you will receive a notification to inform you of the settlement terms.

Step 6: After the account is paid, your creditors may report to the credit rating bureaus that your accounts are "settled in full," "settled," "paid," "paid by settlement", or "settled for less than the full amount." Either way, you no longer owe on this account and the balance is zero.
Congratulations, you are now free of that debt!

After the Program: Sun Credit Florida can offer services to help you restore your credit rating now that you have eliminated your debt.
